

Aerospace Manufacturing Inc. has the following equipment and manufacturing capabilities:

WELDING

- 20 TIG welding stations
- 2 Stud welders
- Spot welder

MACHINING

- Haas Super VF4 Machining Center with full 4th axis (wired for full 5 axis)
- Haas SL20 Turning Center with a cutting capacity of 10.3" x 20".
- Hardinge VCM600 3 axis - 16 Tool CNC machining center
- 2 Computer aided lathes
- 3 Computer aided mills

FABRICATION

- Pines Model 075 CNC tube bender - up to 3" capacity
- Metal spinning lathe with circle cutter
- Stamping presses both manual & hydraulic 20 to 150 tons
- Horizontal & vertical band saws
- Hydraulic shears - 4 foot
- Plasma cutters
- Tube endforming capabilities
- Media blasting cabinets
- Power sheet metal roller

COATING

- New 16' X 24' paint booth

QUALITY ASSURANCE

- CMM Romer Arm - 7 axis
- Rockwell Hardness Tester
- Large certified slates
- Various QA measuring tools and gauges
